

NEREUS-EX-FL

Great just got greater.

A formidable 80W LED floodlight rated for Zone 21 & 22 with an IP66 rating. It's die-cast aluminum body, painted with polyester coated anti corrosion epoxy and 5mm tempered transparent glass front makes it both tough and durable and well suited to outdoor conditions.

**Italian design
elegance meets South
African engineered ruggedness all
wrapped up in an EX mark approval**

Our NEREUS-EX-FL was designed for both aesthetic appeal and rugged capacity. This Italian designed luminaire pairs an IK08 impact rating with up to 10kV built in surge protection on request making it both stylish and capable.

Style and Capability wasn't enough, so our engineers upgraded this luminaire using the latest EX approved components to produce this amazing flood light able to handle Zone 21 and 22 requirements with ease.

The final result, is a fitting that is as elegant as it is rugged.
